# WHY LOCAL LOFT?

This is a new, unique platform that gives your company direct access to over 7,000 apparel fabric buyers, R&D specialists, designers and fashion companies.

The Local Loft will be held strategically within Texworld USA and Apparel Sourcing USA for 3 days of sourcing, education and networking. This new section will highlight local and sustainable apparel factories, contractors and services. This area was created in response to the many attendees who are desperately seeking domestic and locally-sourced production facilities.
